

RISK ASSESSMENT POLICY

**Governing Body Approved
Review**

**Spring 2018
Spring 2021**

Our Vision

For the children of Park View to become positive, responsible, caring and successful citizens well equipped to overcome the challenges of an ever-changing world.

Our Aim

To provide inspirational education in a nurturing environment, where all can achieve their goals and show genuine respect for themselves and for others.

Our Values

Friendship, Ambition & Respect

Respecting the Rights of the Child

This policy promotes rights of the child as set out in the United Nations Convention on the Rights of the Child and supports the school in ensuring that all children at Park View whatever their ethnicity, gender, religion, language, disability, ability or any other status can enjoy the rights to which they are entitled.

Equality at Park View

This policy has been equality impact assessed and we believe that it is in line with the Equality Act 2010. It is fair and does not disadvantage or priorities any pupil or groups of pupils thus promoting equality across the school.

1. Aims

The school aims to ensure that:

- All risks that may cause injury or harm to staff, pupils and visitors are identified, and all control measures that are reasonably practicable are in place to avoid injury or harm
- Risk assessments are conducted and reviewed on a regular basis

2. Legislation and statutory requirements

This policy is based on the following legislation and Department for Education (DfE) guidance:

- Regulations 3 and 16 of [The Management of Health and Safety at Work Regulations 1999](#) require employers to assess risks to the health and safety of their employees
- Regulation 4 of [The Control of Asbestos Regulations 2012](#) requires that employers carry out an asbestos risk assessment
- Employers must assess the risk to workers from substances hazardous to health under regulation 6 of [The Control of Substances Hazardous to Health Regulations 2002](#)
- Under regulation 2 of [The Health and Safety \(Display Screen Equipment\) Regulations 1992](#), employers must assess the health and safety risks that display screen equipment pose to staff
- Regulation 9 of [The Regulatory Reform \(Fire Safety\) Order 2005](#) says that fire risks must be assessed
- Regulation 4 of [The Manual Handling Operations Regulations 1992](#) requires employers to conduct a risk assessment for manual handling operations
- [The Work at Height Regulations 2005](#) say that employers must conduct a risk assessment to help them identify the measures needed to ensure that work at height is carried out safely
- [DfE guidance on first aid in schools](#) says schools must carry out a risk assessment to determine what first aid provision is needed

- [DfE guidance on the prevent duty](#) states that schools are expected to assess the risk of pupils being drawn into terrorism
- [The Health and Safety Executive \(HSE\)](#) say schools that manage their own pools must conduct a risk assessment

A table of all the risk assessments schools are required to have in place can be found in appendix 1 of this policy.

3. Definitions

Risk assessment	A tool for examining the hazards linked to a particular activity or situation, and establishing whether enough precautions have been taken in order to prevent harm from them based on their likelihood and their potential to cause harm.
Hazard	Something with the potential to cause harm to people, such as chemicals or working from height.
Risk	The chance (high or low) that people could be harmed by hazards, together with an indication of how serious the harm could be.
Control measure	Action taken to prevent people being harmed.

4. Roles and responsibilities

4.1 The local authority and governing board

Manchester City Council has ultimate responsibility for health and safety matters in the school, but delegates responsibility for the strategic management of such matters to the school's governing board.

The governing board delegates operational matters and day-to-day tasks to the headteacher and staff members.

Manchester City Council, s the employer, has a duty to:

- Assess the risks to staff and others affected by school activities in order to identify and introduce the health and safety measures necessary to manage the risks.
- Inform employees about risks and the measures in place to manage them.

4.2 The headteacher

The headteacher, or in the headteacher's absence the deputy headteacher has overall responsible for ensuring that all risk assessments are completed and reviewed. This is done with the support of the school business manager.

4.3 School staff and volunteers

School staff are responsible for:

- Assisting with, and participating in, risk assessment processes, as required
- Familiarising themselves with risk assessments
- Implementing control measures identified in risk assessments
- Alerting the headteacher to any risks they find which need assessing

4.4 Pupils and parents

Pupils and parents are responsible for following the school's advice in relation to risks, on-site and off-site, and for reporting any hazards to a member of staff.

4.5 Contractors

Contractors are expected to provide evidence that they have adequately risk assessed all their planned work. The school has produced a handbook for contractors which contains risk assessment and health and safety information. Contractors are given this handbook prior to starting work in the school and are expected to read it and take note of important points and the names of key staff.

5. Risk assessment process

When assessing risks in the school, we will follow the process outlined below.

We will also involve staff, where appropriate, to ensure that all possible hazards have been identified and to discuss control measures, following a risk assessment.

Step 1: identify hazards – we will consider activities, processes and substances within the school and establish what associated-hazards could injure or harm the health of staff, pupils and visitors.

Step 2: decide who may be harmed and how – for each hazard, we will establish who might be harmed, listing groups rather than individuals. We will bear in mind that some people will have special requirements, for instance pupils with special educational needs (SEN) and expectant mothers. We will then establish how these groups might be harmed.

Step 3: evaluate the risks and decide on control measures (reviewing existing ones as well) – we will establish the level of risk posed by each hazard and review existing control measures. We will balance the level of risk against the measures needed to control them and do everything that is reasonably practicable to protect people from harm.

Step 4: record significant findings – the findings from steps 1-3 will be written up and recorded on our electronic Risk Assessment logging tool EVOLVE in order to produce the risk assessment. A risk assessment template can be found in appendix 2 of this policy.

Step 5: review the assessment and update, as needed – we will review our risk assessments, as needed, and the following questions will be asked when doing so:

- Have there been any significant changes?
- Are there improvements that still need to be made?
- Have staff or pupils spotted a problem?
- Have we learnt anything from accidents or near misses?

Step 6: retaining risk assessments – risk assessments are retained for the 3 years after the length of time they apply. Risk assessments are securely disposed of.

6. Monitoring arrangements

Risk assessments are written as needed and reviewed by the school business manager and the headteacher as part of the EVOLVE electronic risk assessment logging tool.

This policy will be reviewed by the headteacher and school business manager every three years and approved by the board of governors

7. Links with other policies

This risk assessment policy links to the following policies:

- Health and safety
- First aid
- Supporting pupils with medical conditions
- Accessibility policy and plan

Appendix 1: statutory risk assessments checklist

The following table lists the risk assessments that schools are required to have in place.

Statutory or mandatory risk assessment	✓	Completed by	Date of review
Health and safety			
Workers under the age of 18			
Asbestos			
Substances hazardous to health			
Display screen equipment			
Fire			
First aid			
Manual handling			
Working at height			
Children being drawn into terrorism
