This Term's BIG PUSH

This term we are focusing on **READING**. Reading is a life skill and as the world of technology develops and children have more gadgets and online places to communicate, learn and play, reading books can sadly take a back seat. However, reading is necessary for many things on and offline and we ask you as parents/carers to encourage your children to read at home, every day from a book, comic or magazine.

For younger children, sharing a story and reading to your child is a great way to get them interested in books, as well as hearing them read their reading book as they get older. For the older children, reading can be a way of relaxing and is a much better way to end the day than being on a screen.

Help us with our **BIG PUSH** on reading this term by encouraging your children to read at home. Ask them about their favourite story or novel or who their class author is. Let them see you reading at home as you are their first teachers. Watch this space for more information about reading.

Social Media Platforms

This is aimed at parents/carers of older children in school but we feel that it will be helpful for all parents/carers to be aware.

There is a growing concern in the media that primary school children are accessing social media platforms that are not designed for their age group and parents/carers, by consenting or not preventing their children from accessing such platforms, are putting their children at risk of exposure to inappropriate and harmful content.

Please be aware that the main social media platforms, SNAPCHAT, TIKTOK & INSTAGRAM are designed for children aged 13 years and above.

We strongly advise parents/carers to remove their children from any of the above accounts whilst they are under the recommended age.
