Headteacher: Ms S Navin

Friday Flyer

Friday 5th February 2021

COVID ALERT

If your child or any member of your household has any ONE of the following symptoms:

- a new continuous cough
- a high temperature
- loss of or change to sense of taste or smell

Do not come to school. Book a test for the affected person and isolate the whole household until you receive the test results.

If a child tests positive, inform the school immediately. The whole household must then isolate for 10 days.

Reminders

- Please make sure that you are wearing a face mask whenever you are entering the school grounds. This is to keep you, other parents, staff and children safe.
- If your child is off for any reason, please ring by 9am.

Sponsored Silence

A huge well done to Autumn-Rose who took part in a sponsored silence this week. She raised £10 all on her own and donated this to school.

Fantastic work!

Live Sessions Update for Home Learners

We are working very hard with our IT providers One Education and a third party company Haptic Networks, to install and build a new platform for home learning and live sessions with class teachers and support staff. We know that the children have been missing seeing their teachers live on their devices but making a move from one platform to another is time consuming if it is to be done properly and safely. We were hoping for our new platform to be ready by the middle of next week but it is more likely to be after half term.

This does not mean that children should stop logging on from home - quite the opposite! Staff are still uploading the recorded sessions and tasks as before. Children learning from

Your Responsibilities

From a Health and Safety point of view, please DO NOT come onto the school premises if you or your child has a new continuous cough, a high temperature or a change to or loss of sense of smell or taste. If you have any ONE of these symptoms, isolate at home and take a COVID test, then isolate until your results come back. If your results are negative and you/your child has not had symptoms for 48 hours, then you can bring your child back to school.

To protect others: adults must wear a mask as soon as they come onto the school premises. This means outside too. Please stay 2m away from other families and staff when dropping children off. Do not enter school unless it is absolutely necessary - most general queries can be dealt with on the phone or via email

to admin@parkview.manchester.sch.uk

If your child is learning at home, it is your responsibility to help him/her engage with the online learning. It helps if children are up and about in the morning at roughly the same time they would be as if they were coming to school. Start the day with breakfast and some exercise and then work to a timetable with breaks between each learning session.

If you are struggling with access to the internet, please email the office staff. If you have a specific question about your child's learning, you can direct those questions to your child's class teacher using the class email.

Safety

To reassure parents whose children are in school, we are constantly reviewing our risk assessment and based on the most recent guidelines from the government. We know that the infection rates are rising across the country and we agree that limiting numbers of children to school will help to slow down the transmission of the virus. This is why our class size is 10 children maximum (for key workers and those with specific needs). We are still keeping children separate at playtimes and lunchtimes and have no whole school gatherings in the hall. There is routine hand washing throughout the day and hand sanitizers in each classroom. Children's temperatures are taken on arrival and any child with a temperature is isolated and sent home. Additional cleaning takes place throughout the day with ongoing cleaning of surfaces, handrails, door panels and toilets.
